

# **Valuing Lives--A Conference on Ethics in Health and the Environment**

**March 5, 2011**

**New York University**

Call for papers and other information can be found at <http://bioethics.as.nyu.edu/object/Bioethics.valuinglives>

Questions? email [sachs@nyu.edu](mailto:sachs@nyu.edu)

Various policy issues in environmental and health-related matters force policymakers to trade human lives against other values. We seek to bring together scholars from philosophy, law and economics for a one-day conference to discuss whether and how this can be done in a morally permissible manner. The conference will feature original, unpublished papers of high quality.
