

AERE FELLOWS PROGRAM

This program recognizes outstanding contributions to the field by members of the association.

Criteria: Awardees will have demonstrated a significant contribution to the advancement of the profession of environmental and resource economics. A candidate must be living at the time of nomination and be a current member of the association or have been a member for at least ten years (not necessarily continuously).

Nomination Process: Any member of AERE can nominate a candidate for the 2010 Fellow Award. A nomination packet should include a vita of the nominee, three letters of support, and a two-page nomination letter outlining what contributions the individual has made that warrant the award. In addition, members of the AERE Board of Directors may consider candidates that have not been otherwise nominated that they feel are especially worthy.

Selection Process: The deadline to submit nominations is November 1, 2010. (Please note that the deadline has been extended.) Nomination packages are to be mailed to:
