

THE UNIVERSITY OF
WESTERN AUSTRALIA
Achieve International Excellence

ASSISTANT PROFESSORS, RESEARCH (REFS 3873 & 3874)

School of Agricultural and Resource Economics

Faculty of Natural and Agricultural Sciences

- 3-year appointments
- Salary range: Level B \$81,400 - \$96,663 p.a.
- Plus 17% superannuation
- Closing date: Friday, 24 February 2012

Two positions provide great opportunities for outstanding economic researchers interested in interdisciplinary research on the environment to join the Centre for Environmental Economics and Policy (www.ceep.uwa.edu.au).

The aim of the Centre is to assist environmental managers and environmental policy makers to ensure that investments in the environment are as effective as possible. It has strong national and international links to environmental managers and other research groups.

The appointees will contribute to various national research projects related to biodiversity conservation and management. One position focuses on the economics of marine biodiversity, including non-market valuation. The other focuses on the application of economic modelling, decision theory and surveys to issues related to terrestrial biodiversity. Both positions will work in collaboration with other economists in the Centre, and with Scientists nationally in the Environmental Decisions Group and the NERP Marine Biodiversity Hub.

The position descriptions (including the selection criteria) and information on how to apply can be found at <https://www.his.admin.uwa.edu.au/jobvacs/external/academic/ads.htm>

To discuss or clarify any aspects of these positions please contact Professor David Pannell on 6488 4735 or email david.pannell@uwa.edu.au after viewing the position documentation.

Committed to recruiting, developing and retaining the highest quality staff
