Tragedies of the Commons: New Tests, New Results, with applications to fisheries and water resources	Advances in Estimating the Social Cost of Carbon	Agri-environmental Policy	Pollution Control	Fisheries 3	Renewable Energy: Theory and Empirics	Deforestation, Property Rights and Monitoring	Field Experiments: Time Preferences and Information Effects	Early Childhood Exposure to Pollutants and Cognitive Development, Health and Behavior	Impacts and Management of Wildfires	Transportation: Innovation and Pricing	Finance and the Environment
--	--	---------------------------	-------------------	-------------	---------------------------------------	---	---	---	-------------------------------------	--	-----------------------------

Valuing Water	Carbon Regulation	Agriculture and Climate Change	Air Pollution: Costs and Impacts of Regulation	Biodiversity 2	Targeting and Development of Wind, Gas and Oil	Environment and Development: Environmental Quality and Health	Topics in Revealed Preferences	Impacts of Air Pollution on Health and Behavior			Energy Efficiency, Electricity Pricing and Electric Vehicles
---------------	-------------------	--------------------------------	--	----------------	--	---	--------------------------------	---	--	--	--

Computable General Equilibrium Models II	JAERE Special Session	Giannini Foundation Session 1: Climate Change and Agriculture	Pollution Control: Enforcement and Compliance	Fisheries 1	Energy: Storage, Intermittency and Misallocation	Natural Resources Management: Growth, Social Benefits and Productivity	Stated Preferences: Methods and Applications	Human Capital, Heat, and Air Pollution	Natural Disasters: Local Impacts and Floods	Transportation: Standards and Purchases	Nudges and Peer Effects: Theory and Empirical Evidence
--	-----------------------	---	---	-------------	--	--	--	--	---	---	--

Water and Agriculture	Tradable Permits	Climate Change: Topics in Agriculture and Time Use	Air Pollution: Damages and Adaptation	Biodiversity 1	Field Experiments in Energy Economics	Electrification and Electricity Use in Developing Countries	Environmental Valuation: Methods and Applications	Local Impacts of Resource Booms	Natural Disasters: Recovery, Learning and Uncertainty	Trade and the Environment	Distributional Impacts and the Environment
-----------------------	------------------	--	---------------------------------------	----------------	---------------------------------------	---	---	---------------------------------	---	---------------------------	--

Computable General Equilibrium Models I	Climate Change: Expectations and Adaptation	Natural Disasters and Climate Change	Prices and Pollution	Land Trusts, Protected Land, Recreation and Tourism	Climate Change Adaptation and Market Power in Electricity Markets	Environmental Policy and Impacts in Developing Countries	Laboratory Experiments in Environmental Economics	Water Quality 1	Forest Resources Management	Transportation: Impacts of Technology and Regulations	Environmental Quality and Housing Prices
---	---	--------------------------------------	----------------------	---	---	--	---	-----------------	-----------------------------	---	--
